Summary

Results-driven Full Stack Developer with expertise in designing and optimizing web and enterprise solutions. Proficient in modern technologies, including JavaScript, React.js, SQL, and Java, with a proven track record of automating processes to enhance operational efficiency. Successfully developed secure and scalable software systems while adept at managing both virtual and physical servers. Committed to leveraging technical skills within a collaborative team to foster innovation and ensure project success.

Skills

- **Programming Languages**: Node.js, React.js, Java, SQL, PHP
- **Web Technologies**: RESTful APIs, Responsive Design, JSON
- **Database Management**: MySQL, Microsoft SQL Server
- **Tools & Platforms**: Git, Visual Studio Code, Figma
- **Additional Skills**: CI/CD, Agile methodologies, Cross-functional collaboration, Configuration and debugging of server equipment, Proficiency in Windows Server 2016/2022

Experience

CASHIER | 09/2024 - Current

Netcost Market - New York, NY

- Managed customer transactions efficiently while providing excellent service in a fast-paced retail environment.
- Ensured accuracy in daily sales reports and handled customer inquiries to maintain satisfaction.

FULL STACK DEVELOPER | 09/2022 - 06/2024

7km - Odessa, Ukraine

- Led the development and implementation of an interactive facility map system, utilizing React, Node.js, and SQL to enable real-time tracking and visualization of critical information. This improved decision-making processes, and operational efficiency.
- Developed a scalable and secure access pass automation system, streamlining vehicle and facility access management with user role management, real-time notifications, and audit logging. This enhances security while reducing manual efforts.
- Built and maintained web applications, integrating APIs, and implementing HTTPS protocols to improve data security and regulatory compliance. Designed and optimized databases to enhance system reliability and performance.
- Experienced in setting up and configuring servers, handling deployment, and performing basic maintenance. Worked with server databases, ensuring stability, security, and efficient data management.

Education and Training

Odesa Technical Vocational College - Odessa, Ukraine | Associate of Science

Computer Science, Expected in 08/2025
